

# Plastic Belting Options

## Standard 8" Profile

DYNAMIC CONVEYOR CORPORATION

Fill in \_\_ with 04, 06, 08, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 36, 42, 48, 54 or 60 for conveyor width

Description	Options	Part Number	Functions / Features / Construction
Standard Flat Top Belt 	Polypropylene	BFTX__	<ul style="list-style-type: none"> <li>Belt is captured in tracks along belt guides in side walls of conveyor</li> <li>3' of belting is required for each 17-1/2" Straight Module and Drive Module</li> <li>1' of belting is required for each 6-1/2" connector module (angle or straight)</li> <li>4' of belting is required for the Feed End Module</li> </ul>
Standard Flat Top Drive Flights 	1" Height 2" Height 3" Height 1/2" to 2-1/2" heights available	IDF1__ IDF2__ IDF3__ "Special"	<ul style="list-style-type: none"> <li>Interlaced in the belt to carry product along an inclining and/or declining angle</li> <li>Installed at customer specified intervals along the belt (exact spacing must be specified)</li> <li>Standard flight indented .7" (.4" flight indent available on request)</li> <li>Constructed of grey polypropylene</li> </ul>
Rubber Flat Top Drive Flights 	1" Height 2" Height	IDF4__ IDF5__	<ul style="list-style-type: none"> <li>Interlaced in the belt to carry product along an inclining and/or declining angle</li> <li>Installed at customer specified intervals along the belt (exact spacing must be specified)</li> <li>Flight indented .7"</li> <li>Constructed of black or white soft rubber</li> </ul>
Flush Grid Belt 	Polypropylene Acetal	"Special"	<ul style="list-style-type: none"> <li>Use for water bath, wash down and cooling applications</li> <li>38% open area</li> </ul>
Perforated Flat Top Belt 	Polypropylene Polyethylene Acetal Nylon	"Special"	<ul style="list-style-type: none"> <li>Use for water bath, wash down and cooling applications</li> <li>Use for finger separator applications</li> <li>6.4% open area</li> </ul>
Mesh Top Belt 	Polypropylene	"Special"	<ul style="list-style-type: none"> <li>Use for water bath, wash down and cooling applications</li> <li>24% open area</li> </ul>
